## WORK EXPERIENCE

WordPress Developer 2021 - Present

### Fiverr

As a WordPress developer on Fiverr, I create impressive websites for clients worldwide. I specialize in Elementor, and makes responsive design for the clients. I excel in timely delivery and effective communication, collaborating closely to bring their vision to life. My goal is to provide top-notch WordPress development services that make a lasting impact.

Full-Stack (MERN Stack) Developer 2022 - Present

### Fiverr | Upwork

As a skilled MERN Stack developer on Fiverr and Upwork, I create powerful web applications. With expertise in MongoDB, Express.js, React.js, and Node.js, I have also build many websites using HTML, CSS, JavaScript and Bootstrap 5 according to the client's expectations and demands. I build robust and user-friendly solutions. I prioritize clean code and efficient practices for optimal performance. Collaborating closely with clients, I bring their ideas to life, exceeding expectations. Committed to timely delivery, I contribute to their success through high-quality work. That's why, I have 5 star rating on Fiverr as a freelancer.

MERN Stack Web Developer February 2023 - Present

### WebBugs

completed a successful internship at Webbugs as a MERN Stack developer, gaining valuable experience in building web applications using MongoDB, Express.js, React.js, and Node.js. Recognizing my skills, Webbugs offered me a full-time position. Now as a full-time developer, I continue to contribute to challenging projects, meeting deadlines and collaborating effectively with the team. This combined experience has strengthened my coding abilities, teamwork skills, and adaptability in a dynamic work environment. I am committed to further growth and making valuable contributions to Webbugs' success.
